

WIRELESS DISPLAY (WiDi) ADAPTER

RELIABLE WIRELESS CONNECTION

Uses a secure (WPA/WPA2) Wi-Fi connection that connects seamlessly to any dual-band router

STUNNING HIGH-DEFINITION VIDEO

Experience high-definition videos up to 1080p @ 30 FPS using H.264 compression technology

EASY SETUP

Quickly connect a laptop to a TV with the software already built into your laptop

PRODUCT OVERVIEW

The D-Link DHD-131 is an easy-to-use adapter featuring Intel® Wireless Display technology, also known as “WiDi”. WiDi is a system for streaming high-definition video content from your PC to an HDTV via your Wi-Fi network. The process involves taking a WiDi-enabled laptop with one of Intel’s new Core series CPUs, and wirelessly connecting it to the DHD-131 adapter that plugs into the HDMI port of an HDTV or any display. Using standard Wi-Fi technology, your laptop screen is instantly displayed on your TV screen without the need for any cables. Take your favorite videos, movies, music, online shows and more from your computer and watch them on your HDTV, all from the comfort of your couch.

EASY TO SETUP AND USE

The DHD-131 quickly and securely connects a laptop PC to a TV without cables. This setup gets you up and running in no time - all you need is a laptop with Intel® Wireless Display installed and a DHD-131 connected to a TV through an HDMI or standard AV cables. It uses a secure (WPA/WPA2) Wi-Fi connection that works seamlessly with any dual-band router. The DHD-131 offers clone, extended desktop and remote flexible display options with multilingual support.

STUNNING AUDIO AND VIDEO

Using H.264 compression technology, the DHD-131 is capable of effortlessly streaming 1080p video at 30 FPS. Surf the web and send an e-mail, or watch YouTube videos, online shows, or anything on your desktop on your big-screen TV.

WHAT THIS PRODUCT DOES

Designed to work with Intel's Wireless Display Technology, the DHD-131 enables you to view your laptop screen on an HDTV, wirelessly. The DHD-131 receives Wi-Fi signals from your laptop, translates the signals into an image, and displays the image on your TV. Experience your favorite videos, movies, videos, pictures, music, online shows, and more from your computer on your HDTV.

YOUR NETWORK SETUP

TECHNICAL SPECIFICATIONS

FEATURES

- Connectivity to laptop: Wi-Fi 2.4 GHz or 5 GHz WPA/WPA2
- Supports HDCP Blu-ray and DVD content
- Latency: about ½ second
- Multi-language support

VIDEO OUTPUT

- 1080p @ 30 FPS using H.264 compression
- HDMI out
- Composite video out

AUDIO OUTPUT

- Stereo, 5.1 Surround¹
- HDMI out
- SPDIF out

OUTPUT INTERFACES

- HDMI
- Composite video out
- RCA audio L/R out
- S/PDIF out

POWER SWITCH

- Power on/off

RESET BUTTON

- Reset to factory defaults

LED

- Power/Status

WIRELESS CONNECTIVITY

- 5 GHz
- 2.4 GHz

POWER CONSUMPTION

- 12 V / 1.25 A

OPERATING TEMPERATURE

- 0 to 40 °C (32 to 104 °F)

STORAGE TEMPERATURE

- -20 to 60 °C (-4 to 158 °F)

STORAGE HUMIDITY

- 0 - 80% RH non-condensing

¹5.1 Surround will be enabled in a firmware update scheduled to be released by Intel in Q2 2011
