

Null Modem Cable

DB9F to DB9F, 1.8 m (6ft.), Beige

Connect with confidence.

MANHATTAN® specially designs cable that allows users to directly connect two computers to each other through the communications ports (RS232 ports). The design allows data to be sent from one device to another for efficient data transfers and device administration. MANHATTAN Cables are engineered and constructed of quality materials to deliver dependable transmissions. Full foil shielding helps minimize EMI interference, ensuring data integrity.

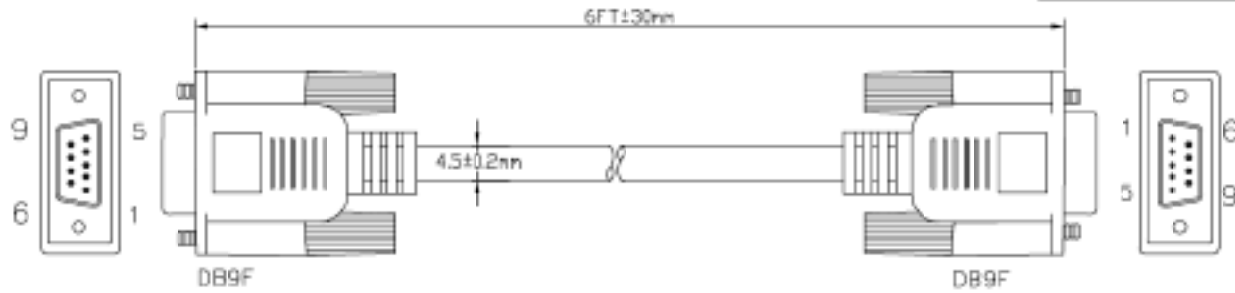

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
