Overview

Forget plugs and wires! The classic-style advanced 2.4 GHz wireless keyboard and mouse are ready to work whenever you are, and the tiny nano receiver is so small you can just plug it in and forget it.

Features

Make work a pleasure with the HP Wireless Classic Desktop. The classic-style advanced 2.4 GHz wireless keyboard and mouse excel when it comes to simplicity and comfort – so you can relax and concentrate on the things that really matter.

Instantly launch your computer with one-touch control, as well as the internet, e-mails, calculator and search function. There are five multimedia controls and three volume buttons, and an integrated number pad for effortless data entry.

No need to strain your arms: the adjustable keyboard has two possible positions, so you can find the one that exactly suits the way you work. And with ten hot keys to speed you along, you'll be more creative, more relaxed and more productive.

The 2.4 GHz USB wireless USB nano receiver is so small you can just plug it in and forget it. With a wireless, three-button optical mouse, and a cool wireless keyboard, wasting precious time untangling cables will quickly become a thing of the past.

Compatible across all notebook and desktop platforms
