CORSAIR GAMING

Embargo Date	April 21st, 2016
Intro Phrase / Tagline	*Legendary gaming keyboard performance with an aluminum frame, dynamic RGB backlighting, and the world's fastest mechanical keyboard switches.*
Product Full Name/Title	**Corsair Gaming K70 RGB RAPIDFIRE Mechanical Keyboard, Backlit RGB LED, Cherry MX Speed RGB**
25-Word Product Description	The K70 RGB RAPIDFIRE has Cherry MX Speed RGB switches backed by a lightweight aluminum chassis. CUE enabled advanced lighting control and large font keycaps deliver dynamic, vibrant multi-color backlighting.
50-Word Product Description	The K70 RGB RAPIDFIRE gaming keyboard has Cherry MX Speed RGB switches backed by a lightweight, durable aluminum frame. Advanced lighting control and large font keycaps deliver dynamic, vibrant multi-color backlighting. Harness the power of CUE for sophisticated macro programming and dramatic lighting effects and animations.
100-Word Product Description	The K70 RGB RAPIDFIRE gaming keyboard has Cherry MX Speed RGB switches backed by a lightweight, durable aluminum frame. Advanced lighting control and large font keycaps deliver dynamic, vibrant multi-color backlighting. Harness the power of CUE for sophisticated macro programming and dramatic lighting effects and animations. 100% anti-ghosting with full key rollover on USB helps ensure accuracy, so every keystroke translates directly into accurate gameplay. The USB pass-through port is positioned for uninterrupted game play and ready for your mouse or wireless headset adapter. Contoured, textured FPS and MOBA key sets keep you in control, and the Cherry MX Speed RGB switches give you linear response and fast actuation.
Product Features	- The world's fastest mechanical gaming keyboard line 100% anti-ghosting and full key rollover on USB 100% Cherry MX Speed RGB gaming key switches with ultra-fast 1.2mm actuation and light 45g force - Aircraft-grade anodized brushed aluminum frame for superior durability - Advanced lighting control and large font keycaps deliver dynamic, vibrant multi-color backlighting - CUE support enables advanced macro and lighting programming for virtually unlimited game customization - Detachable soft-touch wrist rest and dedicated multimedia controls - USB pass-through port for easy connections - Textured and contoured FPS/MOBA keycap sets

Use the Corsair Utility Engine (CUE) to design your own lighting patterns and animations. Here's just a sample of what you can do:

Static lighting: Change any key on the keyboard to a color and brightness setting of your choice. You can create, save, and load custom patterns for your favorite games.
Color cycling: cycle through multiple colors with your choice of speed and color palettes. You can set either the whole keyboard to scroll, or just the keys you want.
Waves and ripples: customize the color palette, direction, duration, and velocity, and have the wave flow across the entire keyboard, or just the keys you want.
Reactive typing: set up single-key reactive typing, or create a multi-key ripple effect. You can choose single-layer lighting, where keys light up as you type, or multi-layer, and have the keys change color.

Specifications		
	Key Switches	Cherry MX Speed RGB, mechanical, 45g actuation force, 1.2mm actuation distance, rated at 50M operations, gold cross-point contacts
	Backlight	Individually lit and per key programmable
	LED Color	RGB
	USB Pass-through	Yes
	Report Rate	Selectable 8ms, 4ms, 2ms, 1ms and BIOS mode
	Matrix	100% anti-ghosting with full key rollover on USB
	On-Board memory	Yes
	Media keys	Six dedicated multimedia keys, incl. Volume Up/Down roller
	Windows Lock key	Yes
	Wrist rest	Full length detachable with soft touch finish
	CUE (Software)	Enabled
	Cable	Braided Fiber
	Dimensions	436(L) x 165(W) x 38(H) mm / 17.2" (L) x 6.5" (W) x 1.50" (H)
	Weight	1.20 kg / 2.65 lbs.
	Warranty	Two years

Package Contents	
	• Corsair Gaming K70 RGB RAPIDIFRE Mechanical Keyboard
	• Detachable full length wrist rest
	• Quick start guide
