The black **Kraken USB Over-Ear PC Headset** from **Razer** offers immersive 7.1 virtual surround sound, and can be customized to your needs via the Razer Surround Calibration and Razer Synapse software. An included anti-noise microphone ensures that teamwork and VoIP calls are conducted in optimal clarity. It also features 1.3" Neodymium drivers for optimal gaming audio, and a closed earcup (backlit) design for optimal sound isolation. The Kraken USB headset is compatible with Windows and Mac operating systems and also with PlayStation 4*.

Nota: *7.1 surround sound only produced on PC through Razer Synapse.*

Immersive Virtual Surround Sound

Using a sophisticated virtual surround sound engine via Synapse, the Kraken USB brings your games to life by projecting a 360⁰ soundscape around you. Everything from gunfire to footsteps, voices, and even the wind in the trees can be heard with positional accuracy, relative to your location in the game world.

Personalized Audio Calibration

With Kraken USB, you can customize a specific profile for each application and fit the sound to your ears. Everything from surround channels, to bass levels, and even incoming voice audio can be fine-tuned to your needs. This applies to movies and music too, so your audio experience will be precise.

Unidirectional Analog Microphone

The unidirectional microphone of the Kraken USB creates crystal-clear audio reproduction with balanced, natural-sounding tones and little background noise pickup that relay your commands and smack talk as if you were right next to your teammates and enemies.

Designed for Extended Gaming Comfort

The Kraken USB is comfortable on your head and ears for extended gaming sessions. Its fully adjustable headband and closed ear cups with padding ensure a suitable fit every time.
