

# Corsair Gaming K70 Mechanical Gaming Keyboard — Cherry MX Red (ES)

The Corsair Gaming K70 is a fully mechanical gaming keyboard with an anodized, brushed aluminum chassis for a professional-grade look and feel. Contoured, textured FPS keys keep you in control if shooters are your game. It's built with 100% Cherry MX switches, and key by key customizable backlighting lets you illuminate your key bindings. 100% anti-ghosting with 104 key rollover on USB helps ensure accuracy, so every keystroke translates directly into accurate gameplay.

## Customizable to your style of play

The all-important WASD and 1-6 keys are contoured and textured, so you can find them fast, and enjoy fast gaming action with less chance of your fingers missing their mark. You can program backlighting for each key independently, so you can set up a custom-lit key binding and save it to onboard memory.

## Looks great on your desktop

Not only is the K70 a remarkable gaming keyboard – it looks amazing, too. The brushed aluminum frame is black anodized for an impressive look, and the brilliant red backlighting gives it the unmistakable look of serious gaming machinery.

---

## Features

### **100% Cherry MX Red Mechanical Key Switches**

You get smooth, linear key response for ultra fast double and triple taps without the audible click.

### **Key-by-Key customizable backlighting**

Deep red LEDs with adjustable brightness and key-by-key programmability to light up just the keys you need. It's great for illuminating your key bindings for each game. It's saved directly to the K70 onboard memory, so you can take your light maps with you.

### **Black anodized, brushed aluminum chassis**

The K70 frame has a professional-grade look and feel, plus the rugged durability you need for hours of gaming.

### **100% Anti-Ghosting with 104 full key rollover on USB**

Every keystroke translates into accurate gameplay—even when multiple keys are pressed. There's no signal degradation, and it keeps up with you, no matter how fast you play.

### **Contoured, textured WASD and 1-6 keycaps**

Keep your eyes on the action with easy to locate FPS keys. An extra set of standard typing keycaps and a keycap replacement tool are provided for general typing.

### **Easy-access dedicated multimedia controls**

You don't just play games – you play music and video, too. Play, stop, pause, skip tracks and adjust volume directly from the K70.

### **USB pass-through**

An extra USB connector is provided. It's great for attaching a Corsair Gaming mouse or headset.

### **Soft-touch wrist rest**

Give your wrists a break, or take it off if it gets in the way.
