

# G105

Gaming Keyboard

YOUR ESSENTIAL TOOL FOR SERIOUS GAMING.

**1. Adjustable backlighting**

Long-lasting LED lighting with two brightness levels helps you easily locate any key in the dark.

**2. 6 programmable G-keys**

Configure up to 18 unique functions per game, including single key presses, complex macros or intricate LUA scripts\*.

**5. Game/desktop mode**

Don't let accidents interrupt your game—press one switch to disable Windows/Context Menu keys.

**6. Long-life keys**

Play harder with responsive keys that are built to last and withstand the demands of serious gaming.

**4. Quick-access media controls**

Instantly control volume, mute, start, stop, pause, forward and back functions.

**3. Five-key anti-ghosting**

Press up to 5 keys simultaneously to perform multiple complex actions without interference or unintended actions.

With dual-level backlighting and fully programmable G-keys, this keyboard gives you the essentials to game your way.

## Product description

### 100-word description

The Logitech® Gaming Keyboard G105 is your essential tool for serious gaming. Play long into the night with LED backlighting. Six programmable G-keys, each with three mode states, provide up to 18 possible macro combinations per game.\* You can perform either single keystrokes or intricate macros with multiple keystrokes, mouse events, user-defined delays and repeating. You can even record new macros on the fly. And enhanced key rollover and anti-ghosting capabilities mean you can perform multiple-and more complex-actions without the interference or ghosting that can occur on other keyboards. Convenient one-touch media key controls put more control at your fingertips. And a game/desktop mode switch disables the Windows and Context Menu keys, so your game won't be interrupted if you accidentally press the wrong keys.\*

### 50-word description

The Logitech® Gaming Keyboard G105 is your essential tool for serious gaming. Play long into the night with LED backlighting. Six programmable G-keys with three mode states each provide up to 18 possible macro combinations per game.\* You can even record new macros on the fly. And you can perform multiple-and more complex actions- without the interference or ghosting that can occur on other keyboards. \* G-key programming requires Logitech® Gaming Software, available at [logitech.com/downloads](http://logitech.com/downloads).
