

Connect and Charge with Generation C Power USB-C Cable

USB-C CABLE

USB-C uses a convenient reversible plug that connects every time and supports the fastest data speeds available on USB. It also offers faster charging than other USB form factors thanks to higher wattage. ADATA makes sure you enjoy the full benefit of USB-C with a durable cable that features a protective sleeve to prevent interference and data loss. We use the finest materials, ensuring the cable can withstand bending, twisting, and pulling. An integrated E-MARK chip boosts transmission power to enable up to 100W and supports USB 3.1 Gen 2 speeds for charging and ample bandwidth for Ultra HD 4K video.

Reversible USB-C connector

No more with USB-C, which is completely reversible. There's no up or down, it connects every time, the first time. It gets much faster data speeds and device charging. USB-C is becoming the new standard on notebooks, tablets, smartphones, power banks, and many other devices.

Evolved performance

USB-C supports much bigger bandwidth than previous USB connection types, allowing full usage of USB 3.1 Gen 2 specifications and capabilities. Speeds go up to 10Gbps, twice those of USB 3.0 via USB-A connectors.

Durable and high powered

The premium connector is tested to a minimum 10,000 insert/remove cycles for a prolonged service lifespan. Additionally, we use 22AWG wiring that carries up to 100W, enough to power sizable devices. An integrated high-grade E-MARK controller regulates and boosts power delivery to ensure safety, efficiency, and speed.

Smooth Ultra HD 4K delivery

The vastly higher speeds and greater fidelity offered by combining USB-C cables and ports with USB 3.1 Gen 2 data standards. They provide an ideal channel for big video files in native Ultra HD 4K, enabling transmission from devices to external storage and live playback without buffering, slowdown, or loss of quality.

Features

- Reversible Type C Connector, plug and unplug easily without checking for the connector orientation.
- Premium Aluminum casing to minimize electromagnetic interference.
- Transmit up to 5 amps of electric current, delivering up to 100 watts. [For USB-C to C]
- USB-C enabled monitors will offer ultra HD 4K video resolution. [For USB-C to C]
- Connect at up to 10GBPS with Super Speed USB3.1. [For USB-C to C]

Specifications

- Interface: USB-C to USB-C 3.1 GEN2,
USB-C to USB-A 3.1 GEN1,
USB-C to USB-A 2.0
- Color: Silver
- Dimensions (L x W x H): 100 cm
- Warranty: 1 years
