

Signature Collection - Ripple, Designer In-Ear Headphones with Mic

In-Ear Full-Stereo Headphones with In-Line Control, Microphone, Noise-Isolating Silicone Tips

Part No.: **178341**

Manhattan Signature Collection - Ripple

The Manhattan Signature Collection is a line of designer in-ear headphones created with three things in mind: fantastic sound, fashionable design and living up to your busy lifestyle.

These in-ear headphones feature our Ripple pattern inspired by Zen art and traditional Japanese design aesthetics. Thirteen-millimeter precision-engineered speakers and noise-canceling silicone tips offer audio so incredibly accurate, you'll hear every note as if the musician were playing right next to you. Even better, they have an in-line control and windproof mic so you can control your music and answer calls without touching your device.

Ideal for use with smartphones, tablets, MP3 players, notebook computers and other portable devices, the Ripple In-Ear Headphones are the ideal match for your musical tastes and your unique style.

For maximum effect, pair these Signature Collection In-Ear Headphones with our Signature Collection Snapcases for Smartphones and Tablets.
