

## Features and Benefits

● **Motorized Pan and Tilt via Remote Control**

You can extend the camera's viewing area on your homepage to cover up to 270° from side-to-side pan and 90° up-and-down tilt via the web-interface or remote control.

● **CCD Sensor**

The integration of a CCD sensor in the DCS-5300 enables high resolution images and offers a sharper image with true-to-life color than CMOS sensors, even under low light.

● **UPnP Support**

The UPnP support lets computers running Windows® Me or Windows XP automatically recognize the DCS-5300 and add it to your network without any requiring additional set up. The DCS-5300 can be viewed from My Network Places as a device in the network.

● **DDNS Support**

By signing up with one of the many Dynamic DNS services, you will be able to access the DCS-5300 from anywhere in the world. By using Internet Explorer 5.x and above, you will be able to type in the pre-selected name of the camera and its domain (e.g. www.mycamera.myddns.com) and you will be connected to your camera even if your IP address has been changed by your ISP (Internet Service Provider).

● **Integrated Web Server**

The DCS-5300 eliminates the need to connect the camera directly to your computer by using an integrated Web server. You can gain access to the camera, view streaming live video, listen to sounds picked up by the built-in microphone and make changes to the camera settings from your browser.

● **Streaming Video at up to 30 Frames per Second**

The DCS-5300 uses MPEG4 Short Header Mode to stream live video at up to 30 frames per second for real-time viewing.

● **Built-In Microphone for Monitoring Audio**

The built-in microphone allows you to hear what you are seeing. View and listen to what's taking place at your home or office on your web browser from anywhere in the world. You can even add an external microphone via the output jack for enhanced capturing.

**DCS-5300**  
**Internet Camera**

**Other D-Link products that work with the DCS-5300:**

**DFE-690TXD**  
**Fast Ethernet**  
**PC Card**

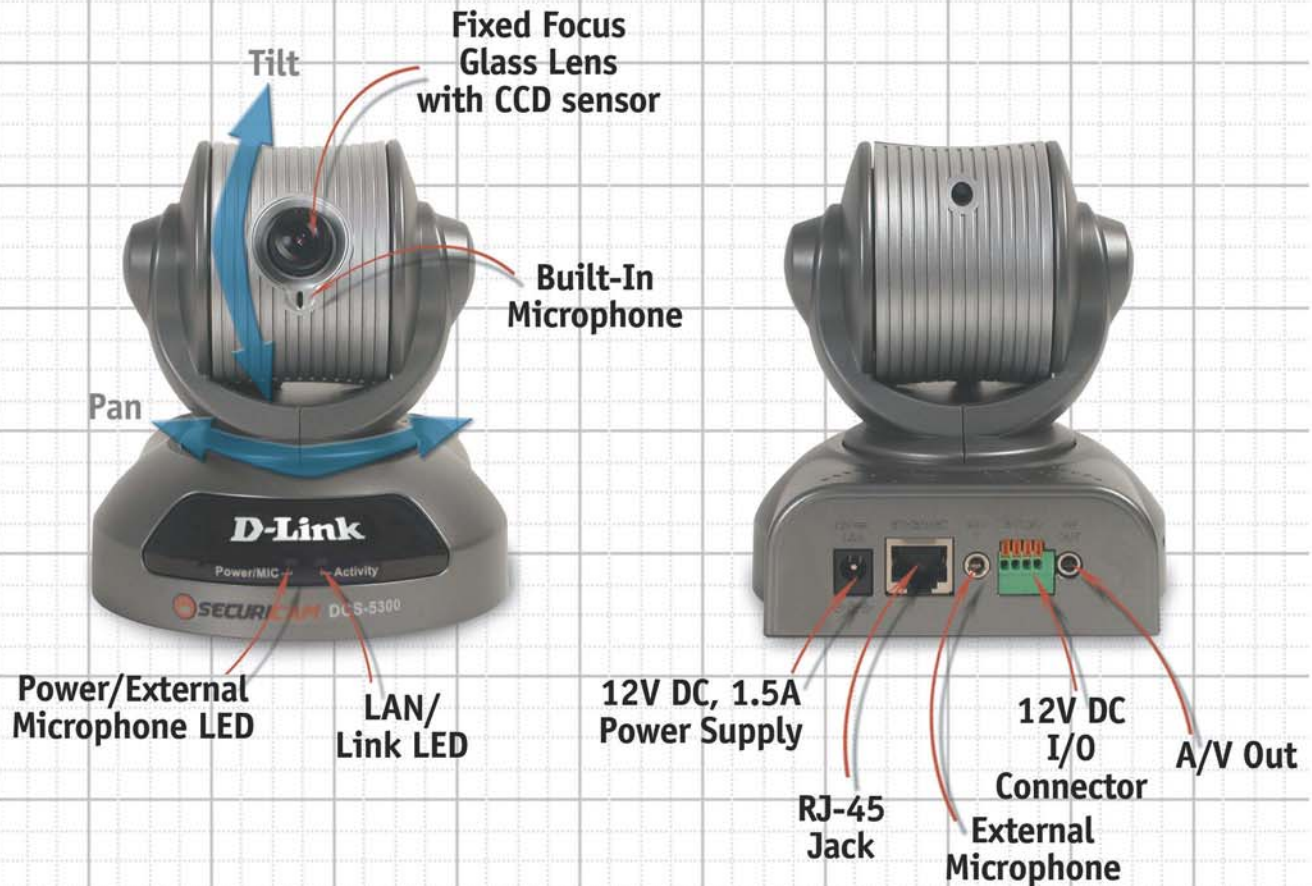

**DFE-530TX+**  
**Fast Ethernet**  
**PCI Adapter**

**DCM-201**  
**USB/Ethernet**  
**Cable/Modem**

# Internet Camera

Remote Control

### Package Contents

- DCS-5300 Internet Camera
- 12v/1.5A DC Power Supply Adapter
- Camera Stand
- CAT5 Ethernet Cable
- A/V Cable
- Remote Control
- Installation Guide
- Software & Documentation on CD-Rom

### Product Information

- Part No: DCS-5300
- Description: SecuriCam
- 10/100 TX Internet Camera
- UPC: 790069-263279
- D-Link Systems, Inc.
- TEL: (877) 45D-LINK
- [www.dlink.com](http://www.dlink.com)

Web-based management makes it easy to quickly set up and configure the DCS-5300. It also displays a wide array of management settings and tools, and allows remote monitoring of video and audio.
